"Hi Gary,

I've got this slated for next Wednesday if it looks good to you." — Michelle Higgins

How to decimate methane emissions, according to...

...USEPA, ECCC Canada, ASEA Mexico, United Nations, supermajors of the OGCI, OGMP and Gastech!

John Crane works across the industry to solve the problem of process gas emissions from oil-seal equipped centrifugal compressors. Other mitigation options show poor payback compared to a gas seal upgrade with its increased reliability and additional operational savings. [Click to see how quickly gas seal retrofit can payback.](#)

Paul Hosking will moderate the [Gastech2019 Emissions Management & Flaring Reduction](#) topic on Tuesday, September 17 in Houston.

The Gastech Conference hosts NOCs, IOCs, integrated energy companies, global utilities, EPCs, pipeline companies and service companies and is a significant event in the global energy industry.

Find out what events John Crane is attending
