CRITICS ARE RAVING ABOUT QUEST

**CHICAGO
READER**

"Recommended . . . a standout act by Amanda Crockett"

"Any of these circus numbers could be stand-alone entertainment. This family-friendly outing is fun and astonishing. To quote the little girl to my left, "Oh my gosh!" She repeated this phrase often."

Reviewing theater... with a bite.

"what is happening is ambitious, adventurous, inventive and full of amazing flipping, climbing, swinging and tossing . . . best moments of the show are the occasions when you seem to forget that you are watching a circus and simply see the stunts as moments in time of conquering an obstacle"

"glued to the action, looking high and low, watching each move and where the performers might be next."

WHAT THE AUDIENCE IS SAYING

"This is a wonderful creative show. If you enjoy Cirque, this is like seeing them five feet away. The performers are out of this world. Loved every minute. Great for every one."
